Trail Period : March 2013 - May 2013.

About the Customer : SPS TRAVELS INDIA

SPS Travels India is based in South India having a fleet size of 130 coaches operating mainly between Karnataka, Tamil Nadu & Kerala states. They are one of the leading private fleet operators in south India having high tech coaches offering modern, comfortable and safe services to their passengers. They operate over strategically positioned routes having offices spread throughout south India.

SPS Travels India have agreed to undergo trail of Greentech Fuel Saver over two of their coaches.

TRAIL PROCESS

Vehicle Details

Make : Ashok Leyland
Model : 2012
Reg No : KA 01 AB 3911.

An ISO 9001 and ISO 14001 Certified Product

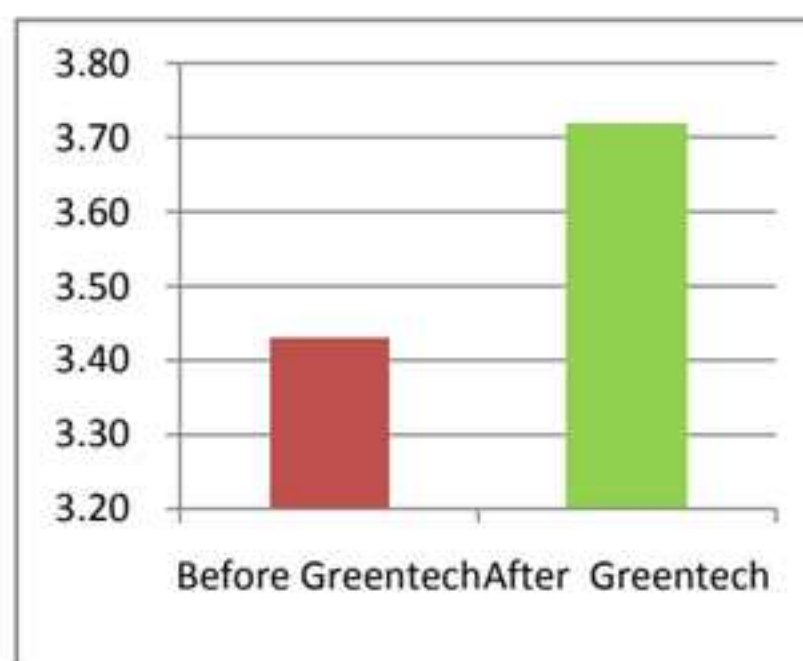

Test Results KA 01 AB 3911

Particulars	Distance in Kms	Fuel in Ltrs	KPL	% Saved
Before Greentech	12109	3534	3.43	
After Greentech	12372	3330	3.72	8.43%

KPL Increase

Particulars	KPL
Before Greentech	3.43
After Greentech	3.72

There is an increase in mileage of 8.43% which amounts to reduction in fuel consumption by 204 Ltrs. Based on current savings SPS TRAVELS INDIA would make a substantial cost savings.

With a monthly potential savings of Rs. 15,000/Month, should they implement our product for 100 coaches, the company would stand to gain annually by a staggering amount of **Rs. 1,88,64,000/-**.

SPS TRAVELS INDIA are impressed with the initial results and have since committed to extend the fuel trail across several vehicles.
